

# LEA ELLIOTT

## Lea+Elliott is pleased to announce

that **Sanjeev Shah**, principal and regional director in our Miami office, has been appointed Chief Strategy Officer. In this new role, Sanjeev will lead the company's strategic efforts to assist our clients in advancing their projects consistent with their vision, values and financial constraints. He will provide top level strategic advice and leadership in project development and delivery, procurement strategy and structuring, funding and public-private financing. Sanjeev's technical and legal background makes him an ideal candidate for this role.

## Lea+Elliott welcomes **Carlos Arias** and **Jacquelyn Caro-Szutar** to our Miami office.

Carlos is joining Lea+Elliott as a Project Engineer. Prior to joining the company, Carlos worked with Crystal Mover Services at Miami International Airport as a technician for the Airport's APM system. He holds a B.S. in mechanical and electrical engineering from Florida International University.

Jaquelyn is joining Lea+Elliott as a Sr. Transportation Engineer with over 16 years of experience in program/project management and construction management at major public infrastructure programs, especially airports. Prior to joining the company, she was the cost/controls engineer for the \$3.2 billion North Terminal Development Program at Miami International Airport. She received a B.S. in civil engineering from Florida International University.
